

CEO Roundtable

September 15, 2022

Topic: Resilience in Innovation

Our brains and businesses are adapting to complement an expanding digital revolution, changing the way we use information, changing how we think, and how we behave. Join bwtech@UMBC, Galaxkey for a Q&A with Sir George after he presents his views on the evolving relationship between technology and people.

Resilience as it relates to Leadership Mission, Tech, Inventors, Team and Risk

About Sir George Zambellas

Sir George Zambellas, who is a techie by heart, naval aviator by passion and naval officer by profession, was born in Wales, was educated in Africa and England and has travelled extensively. He completed his graduation in the University of Southampton with honors in Aeronautical and Astronautical Engineering.

Now immersed in tech companies in the US and UK, he holds the Distinguished Service Cross, and the title Knight Grand Cross of the Order of the Bath, both awarded by Her Majesty Queen Elizabeth II, and he has numerous charitable roles, connected to the military and the sea. He is also Gentleman Usher to the Sword of State.
